BACKGROUND / DISCUSSION:

Discussion of the what, why, where, when, and how to enable Council to have reasonably complete description of the contemplated action. What are the benefits to the City of this action? What are the citizen concerns?

The City is following the State Implementation Plan (SIP) requiring El Paso to reduce its contribution to the particulate matter component of El Paso's Air Shed Quality associated with the City's unpaved roadway surfaces. El Paso's roadway network consists of 2,200 miles of paved City streets. The current inventory of identified unpaved rights-of-way includes approximately eleven (11) miles of unpaved streets, and sixty (60) miles of unpaved alleys. There also exists numerous "paper" platted streets within the City. This represents an improvement over the original 22 miles of unpaved rights-of-way identified in 1996 when the program was originally initiated. Attached to the resolution is the list of proposed improvements to unpaved rights-of-way within District 2. This prioritized list has been developed to utilize funding authorized by the voters in the 2004 bond election.

PRIOR COUNCIL ACTION:

Has the Council previously considered this item or a closely related one?

The Unpaved Rights-of-way District 2 project was passed as part of the 2004 Bond Election held in February 2004.

AMOUNT AND SOURCE OF FUNDING:

How will this item be funded? Has the item been budgeted? If so, identify funding source by account numbers and description of account. Does it require a budget transfer?
